

FS-SH-50W

FS-SH-50W

Used to determine the shear strength of samples like wood

Conforms to ASTM D905, ASTM D143, ISO 6238, DIN 52187, EN 392, UNE 56543:88

The guillotine-like shearing part is self-aligning to ensure a perpendicular force to cut off specimen blocks.

Item No.	FS-SH-50W
• Force capacity	50 kN
• Body	Steel
• Temperature range	0°C up to +70°C Further temperature ranges on request
• Weight	28 kg
• Standard adapter	15.9mm female eye end
• Scope of delivery	1 fixture
